

PAUL MARTIN'S LIBERALS: **BAD** FOR PUBLIC SERVICES

Public Private Partnerships (P3s)

The new face of
privatization

We all lose with P3s.

THERE IS AN ALTERNATIVE – IN THIS ELECTION,

hgb*opeiu491

“The sewer, water, all that stuff can be P3ed. Why does government have to run a sewage system? Why does a public entity have to own a hospital?”

Who said that? Ralph Klein?
Jean Charest? Gordon Campbell?

No, it was MP John McKay – Paul Martin's point person for P3s. And he reveals Martin's true agenda for Canada's public services.

P3s are bad news

- costs go up
- service goes down
- secret backroom deals
- taxpayers guarantee corporate profits
- good jobs lost from the local economy
- no one can be held to account

P3s are a license to print money for Martin's big business backers, including multinationals that put profits above anything else.
